ALWAYS IMPROVING, ALWAYS LEADING —  
**LEHO Has Arrived**

Your patient waiting for the "Ultimate" in stringed instruments is finally rewarded. Whether you have visited music shops or, attended various music festivals ... there is no longer any need to prolong your emotionally charged search for nirvana nor, for your very own, your very finest ...

Immerse yourself and swim in oceans-full of most pleasing and harmonious sounds while strumming any one of the several connoisseur instruments already available worldwide under the extremely popular "LEHO" brand. Continue to visit, shop, play and compare and, request: "I would actually love to now try a few LEHOs, please." Demonstrably leading-the-pack in every sonic and build aspect and finite detail, you will be entirely happy you asked ...

LEHO means "seashell" in native Hawaiian and all LEHO instruments produce the melodious, soulful, romantic sounds of Mother Nature at her most proud moment ...

*Go anywhere, play anywhere!*

Sample Nature's critically seasoned tonewoods to instantly expand, enhance, and easily uplift your own playing style and performance. From your most subtle pluck, picking and chord-strum nuanced breezes, to full-on tempests of sheer power: Now Command. Drive your playing, your accompaniment and solos with total confidence in your trustworthy and most faithful "LEHO" ...

LEHO is a joint-concern and is composed of consulting-partner Pro-Tour artists and expert Designers primarily located in California and Hawaii. Mutual collaboration from numerous "best-in-industry" corners is routinely and quite-purposefully the solid basis of ANY new LEHO model.

The LEHO "Core Team" possesses more than 300 years of experience in the artful, exquisitely adept Creation and Craftsmanship of every LEHO brand instrument. There can be No Doubt ...

LEHO models begin with the global search and savvy identification of the rarest of prime-only construction woods. After ambient-controlled, long-duration seasoning and other proprietary treatments, solely the critically tested and most sonorous materials are allowed to be used in manufacture. LEHO tonewoods preps are often acclaimed as "last-word" in this business ...

Where technology permits some override to achieve realistic price points, without sacrificing one iota of sonic reproduction, LEHO employs the latest, highly-advanced technical machineries for making some component parts. To assure strict consistency, such parts receive testing, testing, some rejection, and testing and testing in order to realize highest-quality only ... LEHO knows!

Many LEHO Hand-Builders and Finishers have 15-20 years experience EACH in the ART of stringed instrument construction and most are also, true musicians themselves! With an ear and a heart to what makes a REAL instrument and to what does not, LEHO artisans continue to uniquely offer you the "crème-de-la-crème" with each and every stringed instrument that proudly boasts the precious and coveted LEHO logo ...

Everyone at LEHO cordially invites YOU to "Enjoy the Music" with us. Always improving and always leading, your best possible investment in your next personal-music-partner is of course, and dependably, only "LEHO". We all, Warmly Welcome YOU to the New World of LEHO ...
